

ELEMENTARY SCHOOL SUMMER CAMP 2023

CAMP OVERVIEW

Our Elementary School Summer Camp provides 3rd, 4th and 5th grade students of all levels with an opportunity to improve their English and Math skills. Students will gain a solid foundation of the fundamentals and exploration of ideas at their own pace. In English class, students will explore challenging vocabulary, diverse reading passages, and effective communication techniques as assigned weekly by the teacher. In math class, students will explore fundamental topics including multiplication, division, fractions, decimals, graphs, tables, and geometry basics. Concepts will include different methods of solving problems, relationships between operations, and expressing logic and reasoning.

WHO SHOULD TAKE THIS CAMP?

Elementary school students in grades 3-5 who would like to improve their Math and English skills while gaining confidence and perspective from interacting in a group setting.
